MESOTHERAPY R3250 | 60min

Active ingredients are deposited into the deeper layers of the skin using our VITAL injector™ targeting specific skin concerns like ageing skin, pigmentation and free radical sun damage. Rejuvenates, tightens, improves blood circulation, and stimulates collagen and elastin production.

THE WORKHORSE

Radiofrequency Microneedling Face & Neck R3500 | 90min

Our cutting edge, dual-action technology combines microneedling with Radiofrequency energy to work within the deeper layers of the dermis to tighten, smoothen and rejuvenate skin.

Fractional Radiofrequency Face & Neck R4500 | 90min

Our plastic surgeon's choice of ablative treatments for resurfacing and improving skin texture. This procedure carries more downtime but has noticeable results for smoother skin and a more vitalized complexion.

Combined Fractional and Radiofrequency Microneedling Face and Neck R6750 | 120min

The powerhouse duo of our Dermatrix Duo, combines both technologies for powerful results.

PIXEL PEELS from 2500 | 60min

This innovative and very customizable procedure combines a variety of 3 different peels with 4 layers of microneedling. The enhanced effect of needling actives into the deeper levels allows for optimal results...a glorious glow! Down time can vary depending on the actives chosen by the therapist on the day.

THE METAMORPHOSIS from R1800

Microneedling with our gold standard technique to stimulate collagen production and improve surface texture and pore size. Choose between the technology of the patented Dermapen MD 4™ and the Bimini microneedling device. Microchannels remain open for 15minutes - take your treatment to the next level by adding actives to penetrate the deeper layers of your skin while these channels remain open.

LASER – IPL REJUVENATION from R1850

A non-invasive and non-ablative treatment that uses high-intensity pulses of visible light to help rejuvenate aged skin and target sunspots, redness, and veins.

LASER – IPL HAIR REMOVAL from R280

THE GREAT RE-SURFACERS From R950 | 60 min

Resurfacing chemical peel treatments are ideal for maintaining and strengthening skin quality by removing the bonds of the superficial dead skin cells. This leads to improved cell turnover, healthier formation of deeper cell layers and improved absorption of home care products. Carefully chosen to address individual skin needs to target hyperpigmentation, photoaging, fine lines, acne, rosacea, sensitive skin and dehydration.

THE SCIENTIST R400 | 45min

Skin analysis with Visia® imaging technology. Highlights aspects of the skin invisible to the human eye to allow scientific recommendations for a targeted treatment plan.
